

# Intelligent Healthcare IT Automation

Automate your IT testing, improve accuracy, and save tens of thousands of hours.

EHR and related system testing is a tangled, messy burden that soaks time, drains resources, and hurts morale – a cost no health system can afford.

There's just never been a reliable way to simplify testing, until now.

Welcome to the era of intelligent test automation.

SureTest's expert methodology, combined with our unrivaled library of test scripts, will emulate your end-user experiences and validates workflow integrity so quickly it will revolutionize your entire approach to system upgrades and new implementations.

Automate your entire EHR and related system testing process and redeem thousands of hours every year

## Optimize Staff

More Testing, Better Quality, Less Stress.

- ⚡ SureTest eliminates >80% of manual testing activities
- ⚡ No more playing referee with departments to secure resources for testing
- ⚡ Keep clinicians focused on delivering care
- ⚡ Free up staff time to focus on more strategic initiatives
- ⚡ Mitigates staff burnout and improves employee morale and satisfaction

## Realize Optimal Efficiency

Eliminate Tens of Thousands of Manual Testing Hours

- ⚡ SureTest works in the background to dramatically reduce the length of testing cycles
- ⚡ Speeds path to go-live, upgrades and ongoing optimization
- ⚡ Keeps projects on schedule
- ⚡ Continuously manages and monitors automated testing
- ⚡ Provides real-time audit documentation

## Improve Patient Care

Continuous Testing Saves Lives

- ⚡ SureTest accounts for every patient journey and related workflow
- ⚡ Automated (daily) testing of routine fixes and enhancements
- ⚡ Eliminates clunky workarounds that invite risk
- ⚡ Eliminates the risk of insufficient testing – often caused by competing priorities
- ⚡ Keeps rigorous testing a priority

## FEATURES

### SureWorks LIBRARY

The world's most **extensive collection of automated test scripts** is the linchpin of our test automation solution. Our library is the key to automation value, and **jump starts the speed of customized development**. What takes a health system three years to develop internally, can be **executed in a few months**.

It's constantly updated and customized to each workflow within your organization's departments to provide **end-to-end integrated and regression testing**.

### SurePersona ENGINE

This powerful tool knows and emulates the exact functions each team member needs to employ for each use case and performs them with **astounding speed and precision** every time.

**Free your team from the time-sucking tedium of testing**, allowing them to focus on improving care for your community.

### SureMethod FRAMEWORK

This methodology is the bedrock for each test automation sequence we deploy.

It's a **rigorous framework** carefully developed by a team of seasoned healthcare experts certified in all major EHRs and test automation tools.

Our commitment to SureMethod means you **realize continuous testing, robust script maintenance and real time reporting**.

## Freedom!

SureTest lets you free your clinicians and analysts to focus on improving lives.

Remove your EHR and related system testing burden with all its pain and expense, and instantly improve the speed and integrity of your processes.

Experience the confidence of having the world's finest testing specialists and technology on your team and ready to go – now!
